Muhlenberg is the greatest coal producing county in the state, we have the best people on earth, and we should have as good roads as anywhere. Good roads cost money as does anything worth effort, but money thus spent judiciously and with intelligence will give the largest returns imaginable. Our officials and the people are awaking to the fact, but it is yet a far call.

If you want your buggy painted in good shape, see G. H. Adamson. He has a good shop, uses the best materials, and knows how to do the work.

The continued rains of the past three or four weeks have done vast damage to crops, and hundreds of acres of corn in the county have been ruined by being overflowed with water. Ridge land farms are looking fine, and there will be a heavy yield of products from farms of this kind, but the bottom lands will prove worthless, practically this year.

Card of Thanks.

We extend to our many friends in Greenville our sincere thanks for their many kindly ministrations in our deepest sorrow, sorest affliction.

R. C. LOVE AND WIFE.

The members of the Baptist church have called Rev. G. W. Clark, of Paris, to the pastorate of this church, and he has the matter under consideration. Rev. Clarke is well known here, where he has conducted two successful revivals, and he has made a host of friends and admirers among our people. If a favorable decision is given the call the church he serves and the whole town will be fortunate, for Rev. Clarke is a preacher of much power.

DOUBLE DROWNING

Mother and Son Drowned in Log Creek Last Sunday Afternoon.

One of the most shocking accidents that has occurred in the county in many years was the accidental drowning of Mrs. Sam P. Wilkins and her son, Clarence, a 15 year old boy, which took place at the Rocky Ford crossing at Log creek, near Old Salem, about 3 o'clock last Sunday afternoon. Mrs. Wilkins and her son had been on a visit to the home of Mrs. Mack Phillips, where they went Saturday, and were returning home. The rains Sunday threw a vast volume of water in the creek, which was misjudged by the occupants of the buggy, and when they drove into the stream it is supposed they were washed out of the vehicle and drowned. The horse made his way to shore and walked up to the gate of a farmer who was away from home with his family for the day, and it was some hours before anyone knew or suspected that the people had been drowned. When he saw the horse he raised the alarm, and neighbors soon formed a search party, but the bodies were not recovered until about 10 o'clock at night. Some underbrush had caught and held both bodies within fifty feet of the ford, and they were carried to the late home near Earles. The accident has cast gloom over the whole community. Mrs. Wilkins was one of the beloved women of her neighborhood, and the boy was popular with all, who respected him on account of his many qualities. The husband and five children survive. Funeral services were held at East Union church at 2 o'clock Monday afternoon, after which the bodies were laid to rest side by side in the church graveyard. A vast concourse of people attended.

School Taxes Due.

Road Improvements.

Our fiscal court has made gratifying progress in its attention to our 600 miles of roads in the county, and the providing of the graders and liberal allowances for work have brought about greatly improved highway conditions. But we need now and need it badly, a steam road roller, of some ten ton weight. One would be sufficient for the whole county, and the \$2,000 investment would be the best expenditure of the people's money that could be made. Several miles of road surface could be made solid in a day, and in traveling from place to place, in following the grader crews, the roads would be every trip be improved, as some eight feet of the surface would be covered.

Look through our Fine Suits offered through July at \$15. EADES & BAIRD.

Muhlenberg roads have suffered from the continued rains of the last several weeks. There are two important items needed, and will be absolutely necessary before we can secure full benefits from our road graders, and secure good roads, and they are: Tiling of the roads, so that where water is carried across the roads it can be conducted underneath, instead of over the surface and a steam roller, which will leave the newly graded surface packed, insuring a saving in damages from traffic, as results now from loose surfaces left. A road roller would soon pay for itself in the decrease of grading work necessary, and at the same time would produce much better roads. The wash and wear and tear of road surfaces left loose soon destroy the benefits of the work of the grader.

The cook book gotten up by the ladies of Madisonville is on sale at R. Martin & Co's Store.

Mr. Chas. Newman and wife, of San Bernardino, Cal., are here on a visit to friends and homefolks. They left here many years ago, and this is their first return visit. Muhlenberg has made wonderful progress, they say, but is no comparison to the magnificent country where they have made their new home.

Socialists Name County Ticket Tuesday.

Interest in Socialism in Muhlenberg has been developing rapidly during the past few years, and it is claimed by some parties that there are some 300 voters in the county. Quite a number of them met here at the court house Tuesday afternoon, and held a county convention. Robert Mitchell Roll, of Henderson, made a lengthy address, in which he made some pretty strong statements of his belief, and which was frequently applauded. The following candidates were named for county offices:

N. Royster, Representative.
T. R. Clemmons, County Judge.
Otaway Kennett, County Court Clerk.
Minor Brown, Circuit Court Clerk.
J. F. Robertson, Sheriff.
J. H. Bishop, Jailor.
J. H. Tudor, Assessor.
Eli Hayes, Coroner.

On the last Tuesday in the month an adjourned meeting will be held, when the ticket will be completed by nominating candidates for county attorney, superintendent of schools, surveyor and magistrates from each district. The following were named as members of the county central committee: J. V. Poag, chairman, Greenville; J. F. Robertson, Powderly; J. H. Tudor, Powderly; Fred Phillips, Depoy; C. Monarch, Powderly.

It is proposed to make an aggressive campaign, and local and national speakers will be placed in the field to arouse an interest in the ticket.

KILLING AT CENTRAL CITY

Ben Rosson, a White Man, Kills a Negro Woman and Wounds a Negro Man Last Saturday Night.

Muhlenberg again rests under the cloud of a murder, an ugly affair occurring at Central City about 11 o'clock last Saturday night, when Ben Rosson, a white man, shot twice into a party of colored people, a woman Lollie Fentress, being most instantly killed and a man named James Wood being shot in the side, but not seriously hurt. The coroner's jury, after hearing the evidence, returned a verdict that the killing was done by Rosson, and the murder was committed without provocation. Rosson was brought here and lodged in jail, the examining trial being held yesterday.

The Office Seeks the Man.

The office said: "Me thinks I'll try the celebrated plan indorsed by all philosophers—I'll go and seek the man." And so with quite a knowing air it came down from its perch and took a lantern in its hand and started on the search. The patriots were numerous—the men who bleed and die to save the country's honor and to get their share of the pie; and when they learned the purpose that the office had in view they quickly donned their hunting togs and gave the view halloo! They chased that office up and down, through gully swamp and creek; they trailed it down with bloodhounds and they slugged it with a brick; they pursued it through the alleys, all the frantic, yelling swarm; and they smote it with a cleaver an' gave it chloroform. And a sage who saw the hunting from the window of his lair, murmured sadly: "I'm too bald or I would surely tear my hair! Here's a plan we seers have boosted since philosophy began knocked to everlasting flinders! Office dare not seek the man!"

"Cherry-Blossom."

THE JAPANESE GIVE GOOD EXAMPLE

It is a proverb of Cherry Blossom Land that a healthy stomach is the basis of all strength. Good nature is also recognized as of great importance. The Japanese as a people are remarkable for their health, endurance, patience and skill.

The cherry tree is the most highly prized of all in Japan. It not only gives forth a beautiful blossom but the wild cherry tree furnishes a bark which is most highly prized in medicine.

Wild Cherry (Prunus Virginiana).

The UNITED STATES DISPENSARY, which is a authority on medicines, says of the properties of this Wild Cherry bark: "Uniting with a tonic power the property of calming irritation and diminishing nervous excitability. Adapted to the treatment of diseases in which there is debility of the stomach or of the system." Another authority, KING'S AMERICAN DISPENSARY says, "It gives tone and strength to the system, useful in fever, cough, and found excellent in consumption." This ingredient is only one of several very important native medicinal roots in Dr. Pierce's Golden Medical Discovery. This is a remedy which has secured the public approval for nearly forty years, nothing new or untried about it, has cured thousands of people of those chronic, weakening diseases which are accompanied by a cough, such as bronchitis and incipient consumption. More than that, by reason of the other ingredients, Bloodroot, Mandarake, Golden Seal, and Queen's root, all of the medicinal virtues of which are scientifically extracted and combined in Dr. Pierce's Golden Medical Discovery, remarkable cures of dyspepsia and stomach disorders have been accomplished.

Nearly forty years ago, Dr. Pierce discovered that chemically pure glycerine of proper strength is a better solvent and preservative of the active medicinal principles residing in most of our indigenous or native medicinal plants than is alcohol. As its use is entirely unobjectionable, while alcohol is well known when even used in small quantities, for a protracted period, to do lasting injury to the human system, especially in the case of delicate women and children, he decided to use chemically pure glycerine instead of the usually employed alcohol in the preparation of his medicines. He found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties of great value. Its nutritive properties, Dr. Pierce believes, far surpass those of cod liver oil, retarding it to favorable consideration in all cases of incipient consumption and other wasting diseases. It is an invigorating, tonic alternative, and owes its virtues to Nature's vegetable garden. Dr. Pierce is only the discoverer of the glycerine who knows how to combine the plants given us by Nature to cure our diseases. This preparation is of pleasant taste, agrees perfectly with rebellious and sensitive stomachs, and is extremely effective in restoring tone and vigor to the entire system. It cures inflammatory trouble of the stomach as well as indigestion and dyspepsia arising from weak stomach. One reason why it restores the health of run-down, pale and emaciated people is because it first throws out the poisons from the blood through the liver and kidneys. It then begins its reconstructive work in building a flesh by first making good, rich, red blood.

The "Golden Medical Discovery" is made in a large laboratory, thoroughly equipped with every scientific appliance at Buffalo, N. Y. Qualified chemists are in charge of the laboratories, and nearly a score of skilled physicians and surgeons employed to scrutinize, determine and prescribe these remedies as other means of cure as seem best suited to many thousands of cases of chronic diseases which come before them for treatment each year. It costs you nothing to write to Dr. R. V. Pierce—the head of this Institution at Buffalo, N. Y. and get an accurate medical opinion in your special case and wholly without charge.

The wallpaper season has been heavy at Roark's this spring, and some of the more popular patterns have been reduced to quantities sufficient for only one room. The goods are fresh and patterns excellent. Bunched for quick handling and priced for rush sale, so you had better have an early look.

Death of Miss Nellie Love.

Nellie, daughter of Rev. and Mrs. R. C. Love, died at their home in Marion at 10 o'clock Saturday night from tuberculosis of the lungs. The death was a great shock to most of our people, as only the intimate friends of the family knew that the young lady was a sufferer from the dread disease, and she was able to be up and about until two weeks before her death. Miss Love had just reached the attractive stage of young womanhood, being in her 25th year, and made friends of all who knew her. Here, where she lived several years, her father being stationed at this point as minister of the Methodist, she had friends and admirers by the score, for her charming social manners and bright, cultivated mind, occupied with a cheerful, vivacious disposition, won recognition in all circles. The body was brought here Sunday afternoon, and was carried to the home of Mrs. C. A. Williams, her only sister. Funeral services were held at the Methodist church at 2:30 Monday afternoon, conducted by Rev. J. B. Adams, of Marion, who delivered an effective address, and interment followed in Evergreen cemetery. Both services were attended by a large number of old schoolmates, associates, and friends from all ranks. The sympathy of the community is extended to the parents and sister, in this, the first death that has occurred in the family.
